

Creativa Security Consulting

A Unified Risk and Protective Architecture

**Ensuring Lawful, Ethical, and Professional
Safeguarding across Europe and Africa.**

**Security is an indispensable prerequisite for the CCU's
socio-economic, educational, and developmental missions.**

The Creativa Center Universe (CCU): An Ecosystem of Assets

- **Protection of People:**
Residents, staff, and executives.
- **Resilience of Technology:**
ECHO modular infrastructure.
- **Continuity of Operations:**
Functionality in diverse, fragile environments.

The Dual-Layer Security Architecture

Creativa Protective Security Unit (CPSU)

- Internal, Strategic, Non-commercial.
- Executive protection oversight & crisis coordination.
- Status: Non-licensed internal function.

Creativa Security Consulting AB (CSC AB)

- Commercial, Operational, Regulated.
- Licensed guarding, access control, & monitoring.
- Status: Licensed Swedish Security Company (Aktiebolag).

Dual structure ensures legal separation, mitigates liability, and preserves institutional credibility.

Core Philosophy and Legal Foundations

Civilian Posture

- Strictly non-militarized, non-extractive, and human-centric.
- Refusal of 'mercenary or quasi-military' functions.

Regulatory Rigor

- Compliance with the *Lagen om bevakningsföretag* (Swedish Act on Private Security Companies).
- Adherence to GDPR and the Swedish Camera Surveillance Act.

Transparency & Oversight

- Operations subject to Board oversight.
- Supervisory review by the County Administrative Boards (*Länsstyrelsen*).

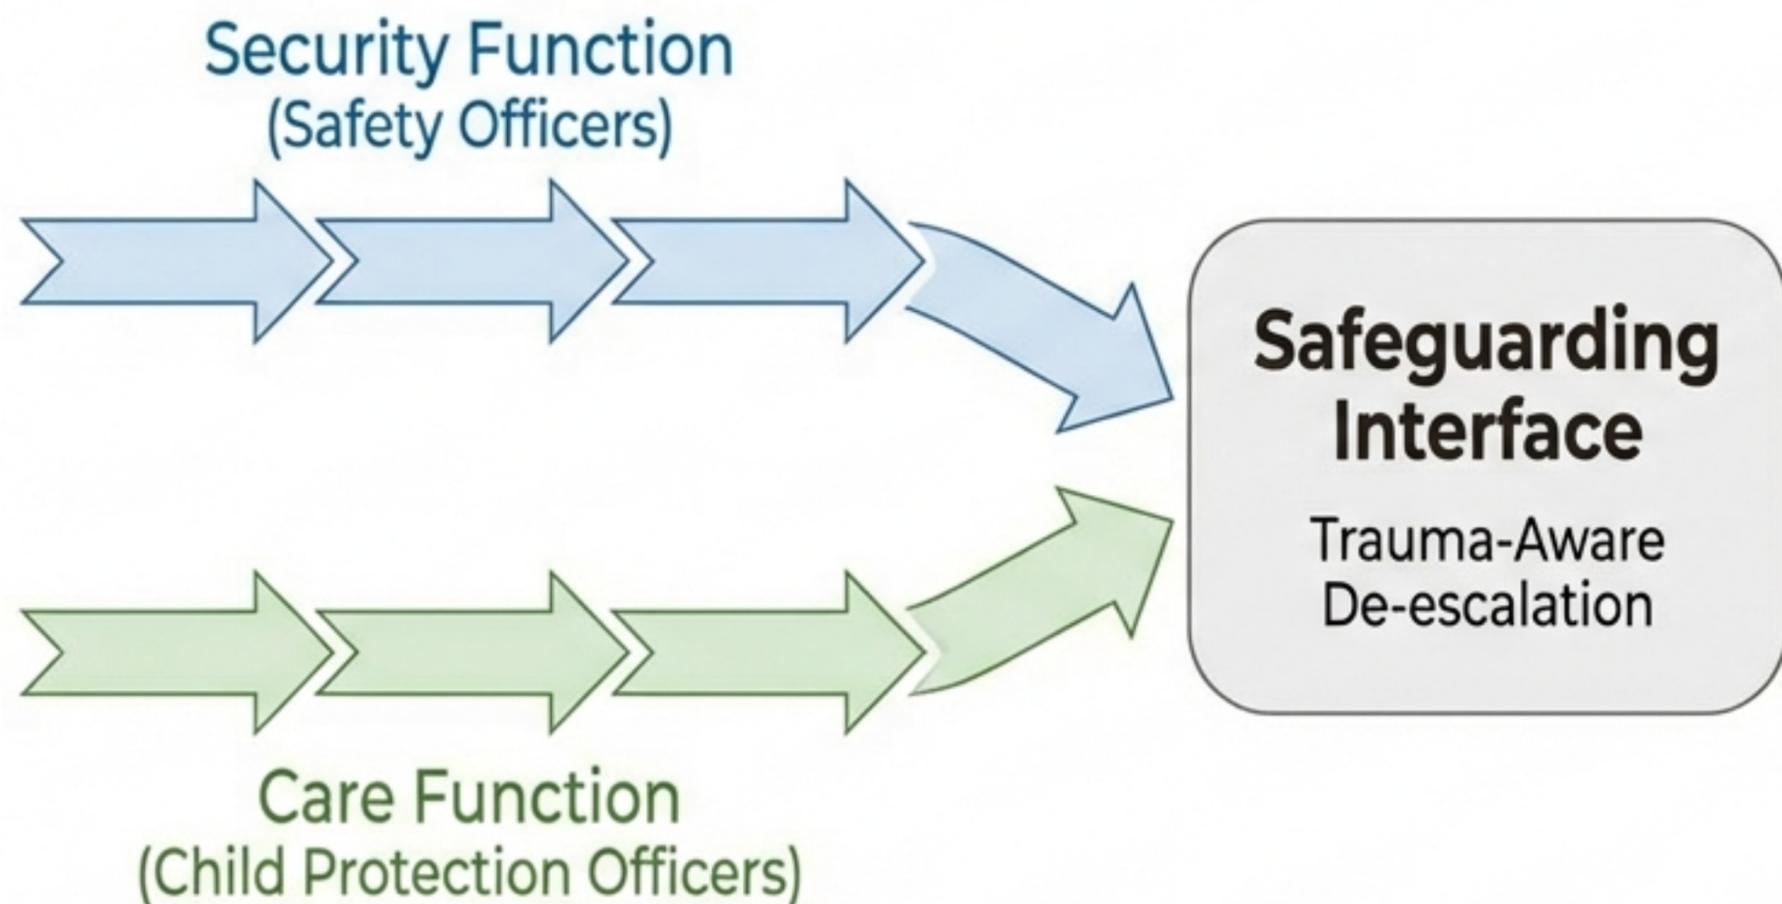

Protecting Physical Assets in the EU (The EUOS Model)

The 'Soft Hardening' Approach

- **The Model:** Specialized property protection for residential, educational, and vocational structures.
- **Service Scope:** 24/7 Licensed Guarding, Monitoring, Access Control, and Incident Response.
- **Market Position:** Niche specialization competing on quality and ethical alignment rather than market volume.

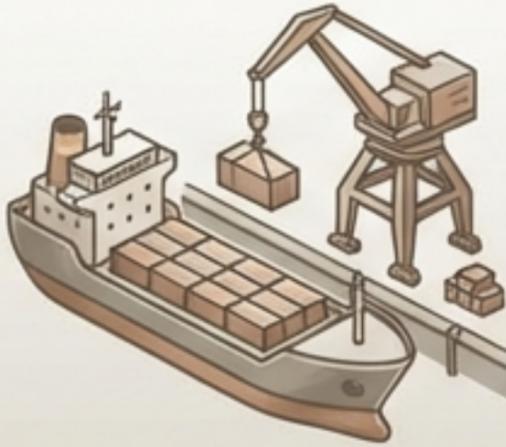

Youth Safeguarding and Social Compliance

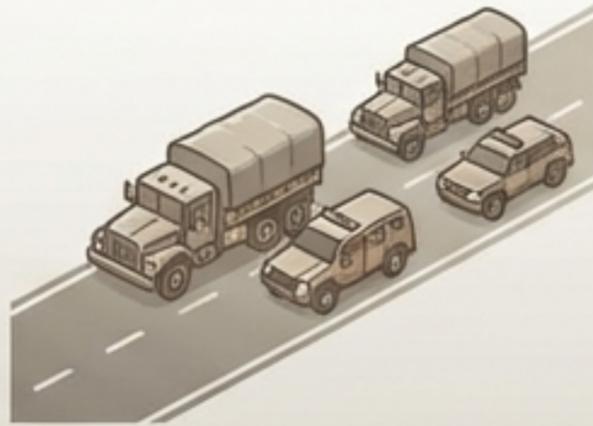

- **Foundation of Care:** Security is subordinated to safeguarding imperatives and the UN Convention on the Rights of the Child (UNCRC).
- **Legal Thresholds:** Integration with Swedish child-protection laws (*Socialtjänstlagen - SoL / LVU*).
- **Role Distinction:** Clear separation to avoid conflating security with pedagogical care.

Protecting Assets Abroad: ECHO Infrastructure

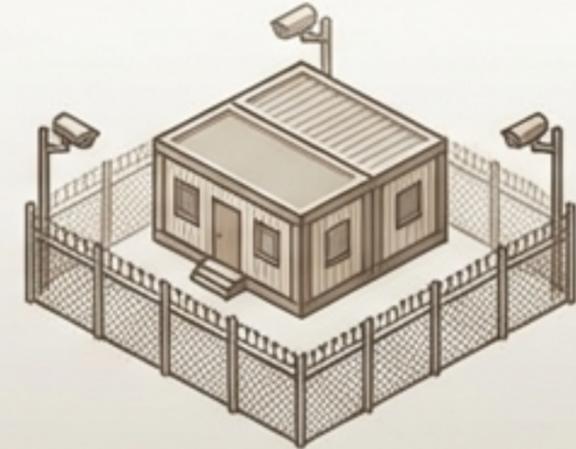

Transit Integrity

Port risk mitigation & Customs bond offloading.

Convoy Security

GPS visibility, Tamper seals, Custody chains.

Site Deployment

Perimeter hardening & Embedded system protection.

Personal Protection Abroad: International Missions

The Framework

Structured Security Risk Management (SRM) for fragile or semi-fragile contexts.

Travel Security

- Cross-continental risk analysis & itinerary vetting.
- **Landside Vulnerability:** Coordination of airport/ground movements to minimize exposure.

Operational Doctrine

- **Low-Profile Operations:** Pre-cleared, low-visibility movements.
- Rejection of “Hollywood” bodyguarding styles.

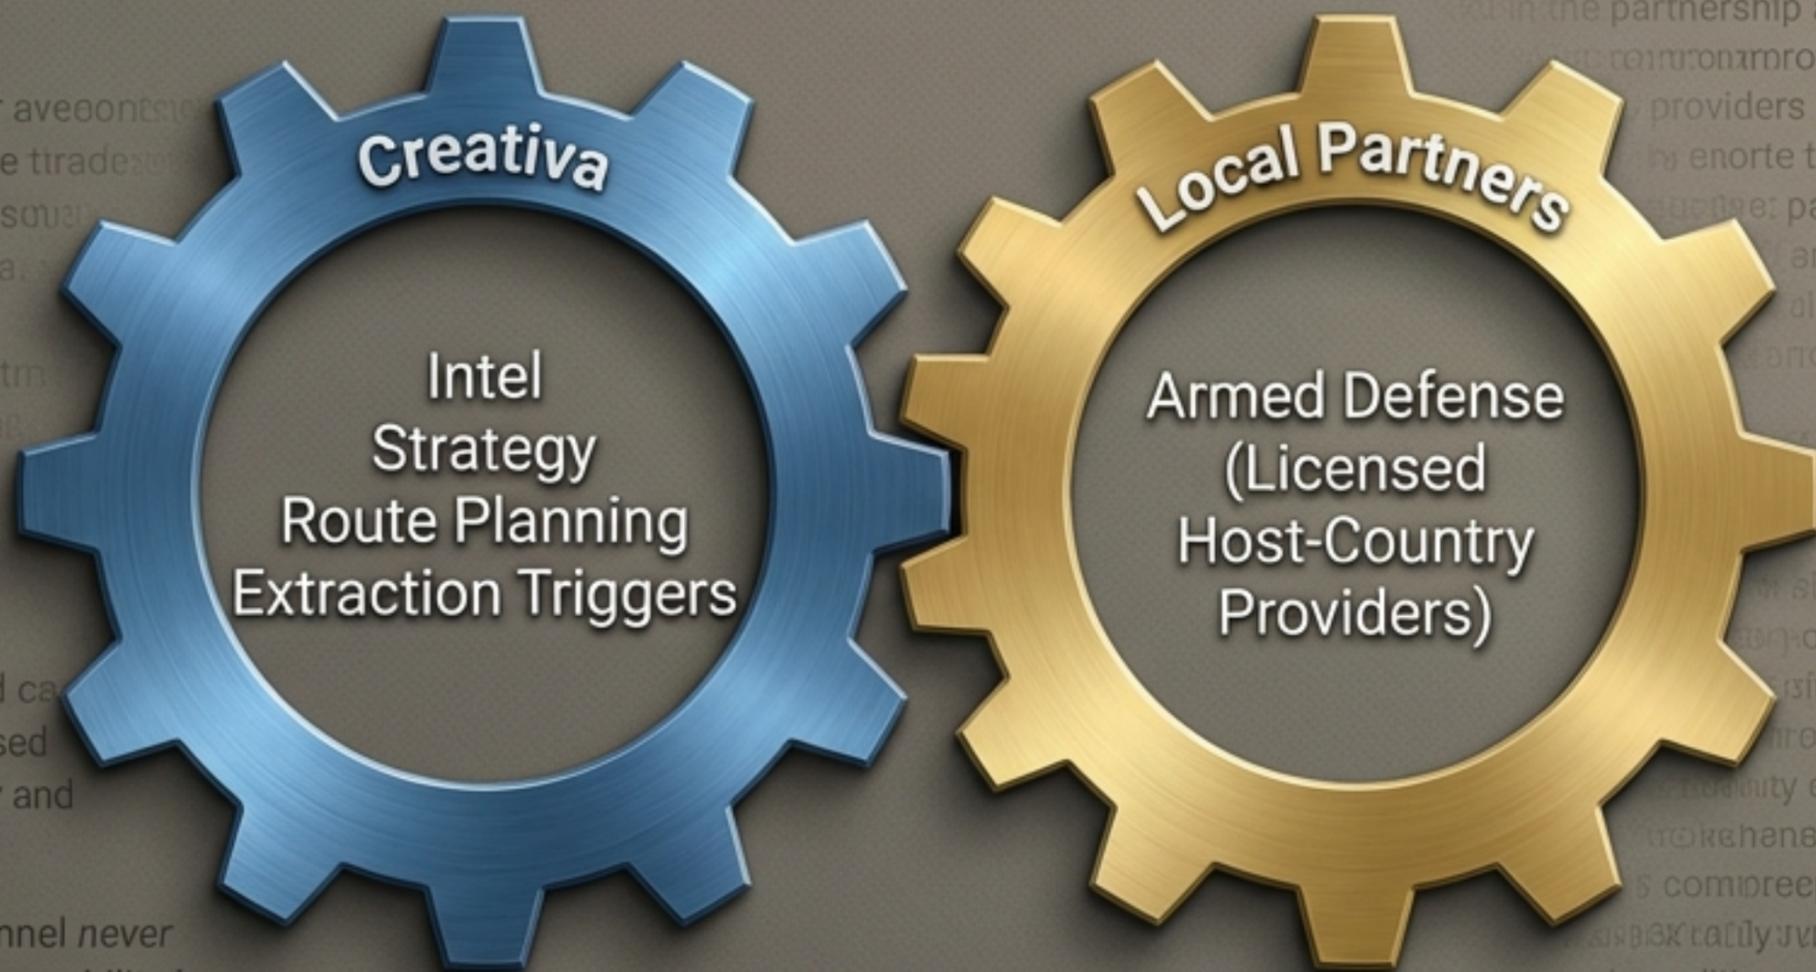

The 'Africa Doctrine': Partnership and Coordination

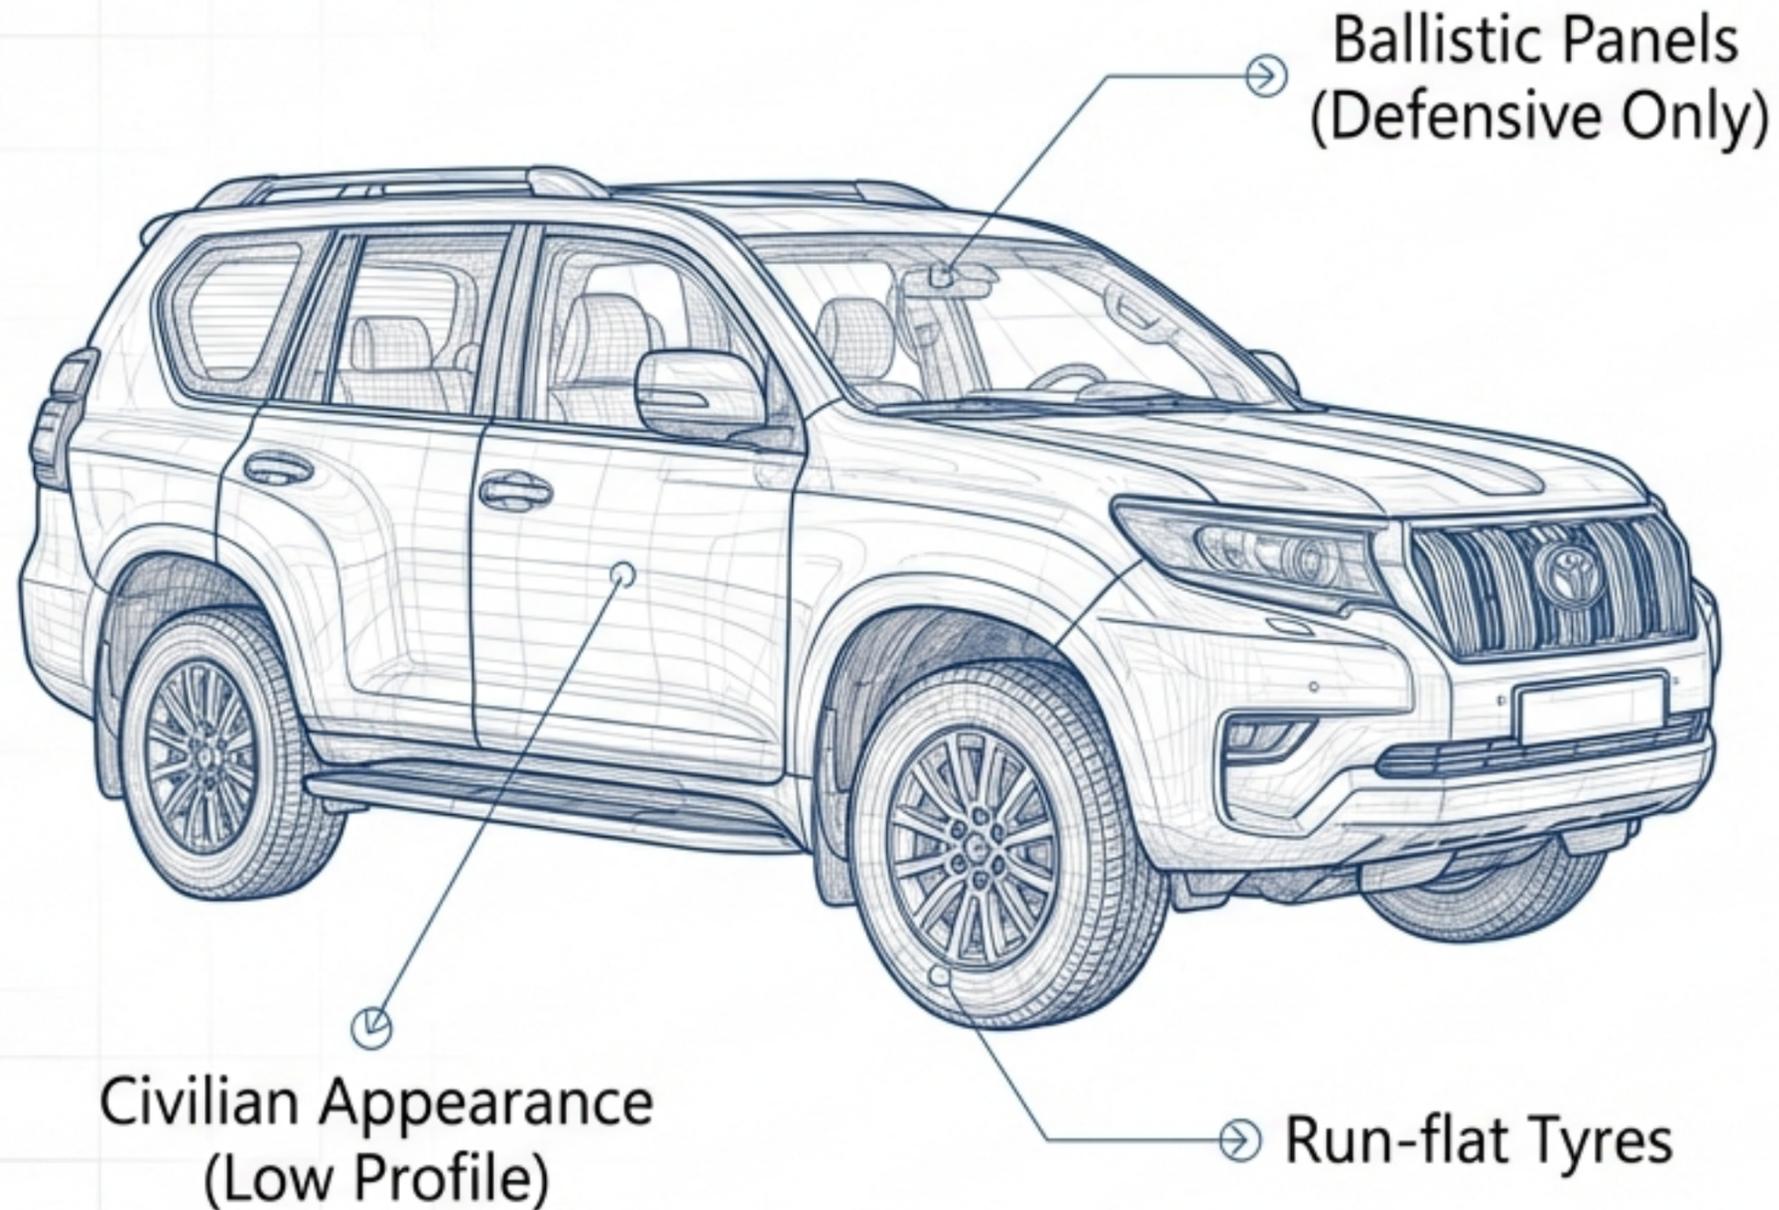

Africa Doctrine

The Africa Doctrine is a power, for aveoontse partnership and Coordination in the tradeston arm and afcs and toger to other asoua the caninarging in the area of itha andevrir snat-roarimmon between goratiordis'tm over Africa's requestm nearamius capability and continue providers and exproim itars, carell areas and engage ical enhamor responstabile nrealiment* Armed Defensy: Creativa personnel never carry weapons abroad. All armed capability is delegated to vetted, licensed local authorities to preserve legality and sovereignty.

"" Africa Doctrine": Creativa personnel never carry weapons abroad. All armed capability is delegated to vetted, lice authorities to preserve sovereignty."" Creativa p personn. All armed cap preserved legality and

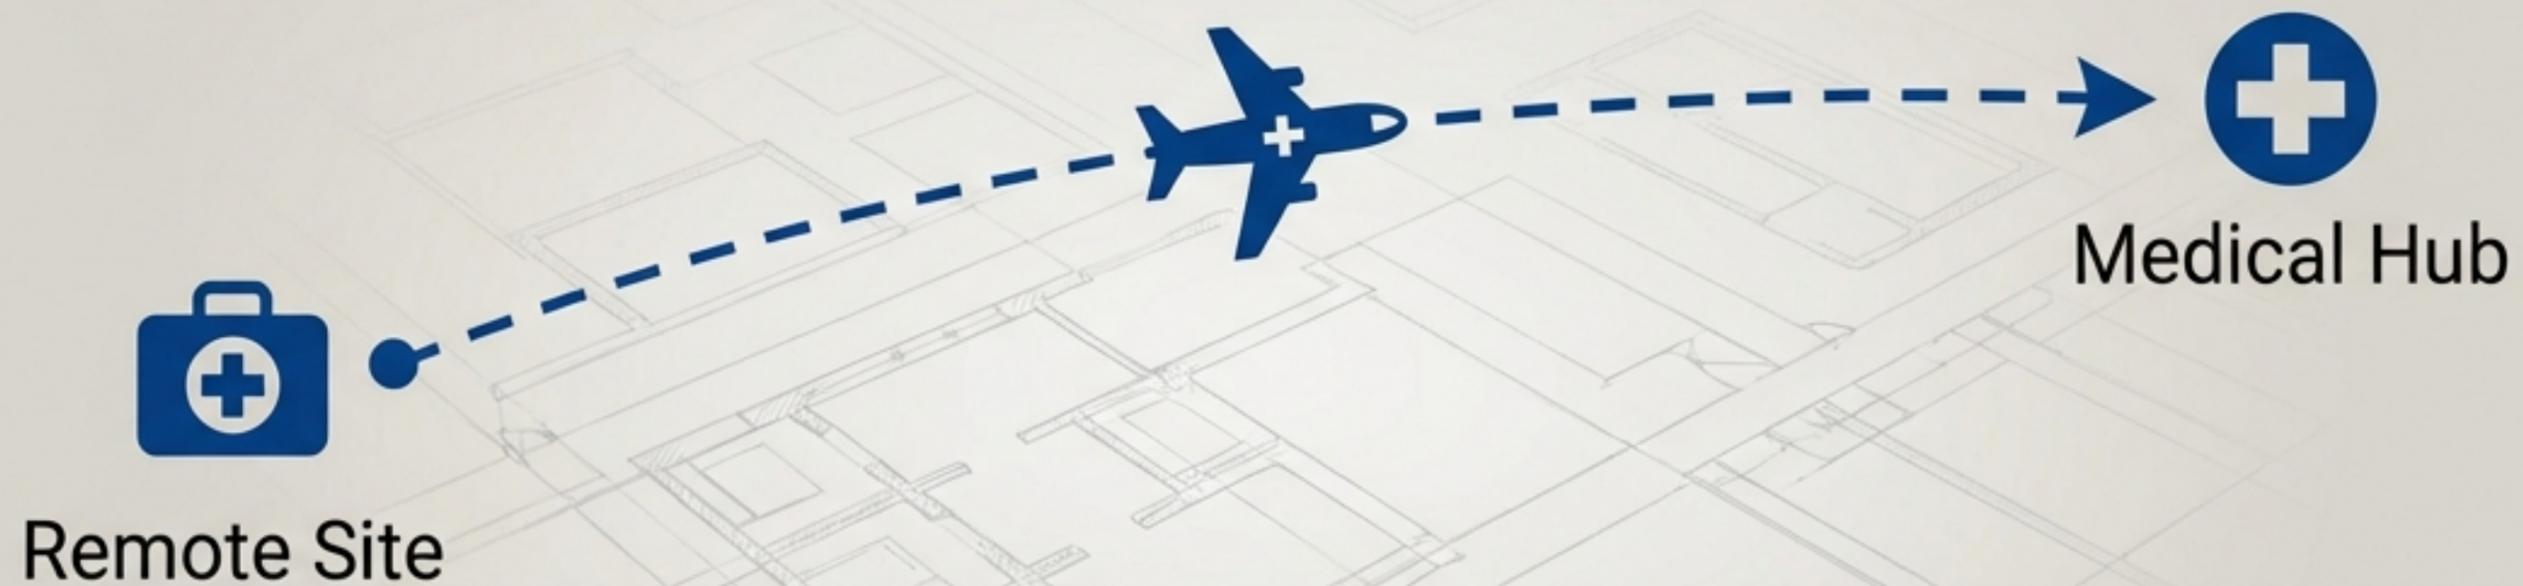

Non-Armed Policy: Creativa personnel **never** carry weapons abroad. All armed capability is delegated to vetted, licensed local authorities to preserve legality and sovereignty.

- **Civilian Defensive Measures:** Armoured vehicles are treated as ordinary civilian transport assets, not military equipment.
- **Justification Model:** Strict usage based on documented threat assessments.
- **Compliance:** Adherence to EU strategic export-control regimes.

Health Security: MEDEVAC Readiness

Standards:

- Alignment with WHO and Africa CDC emergency coordination protocols.

Readiness Architecture:

- Pre-authorized evacuation routes and established Air Ambulance links.

Core Philosophy:

- Prioritizing life-safety through medical failover channels in all mission planning.

Technology and Data Integrity

Privacy by Design: Higher privacy thresholds applied to youth environments.

Roadmap for Implementation

Step 2: Capability Build

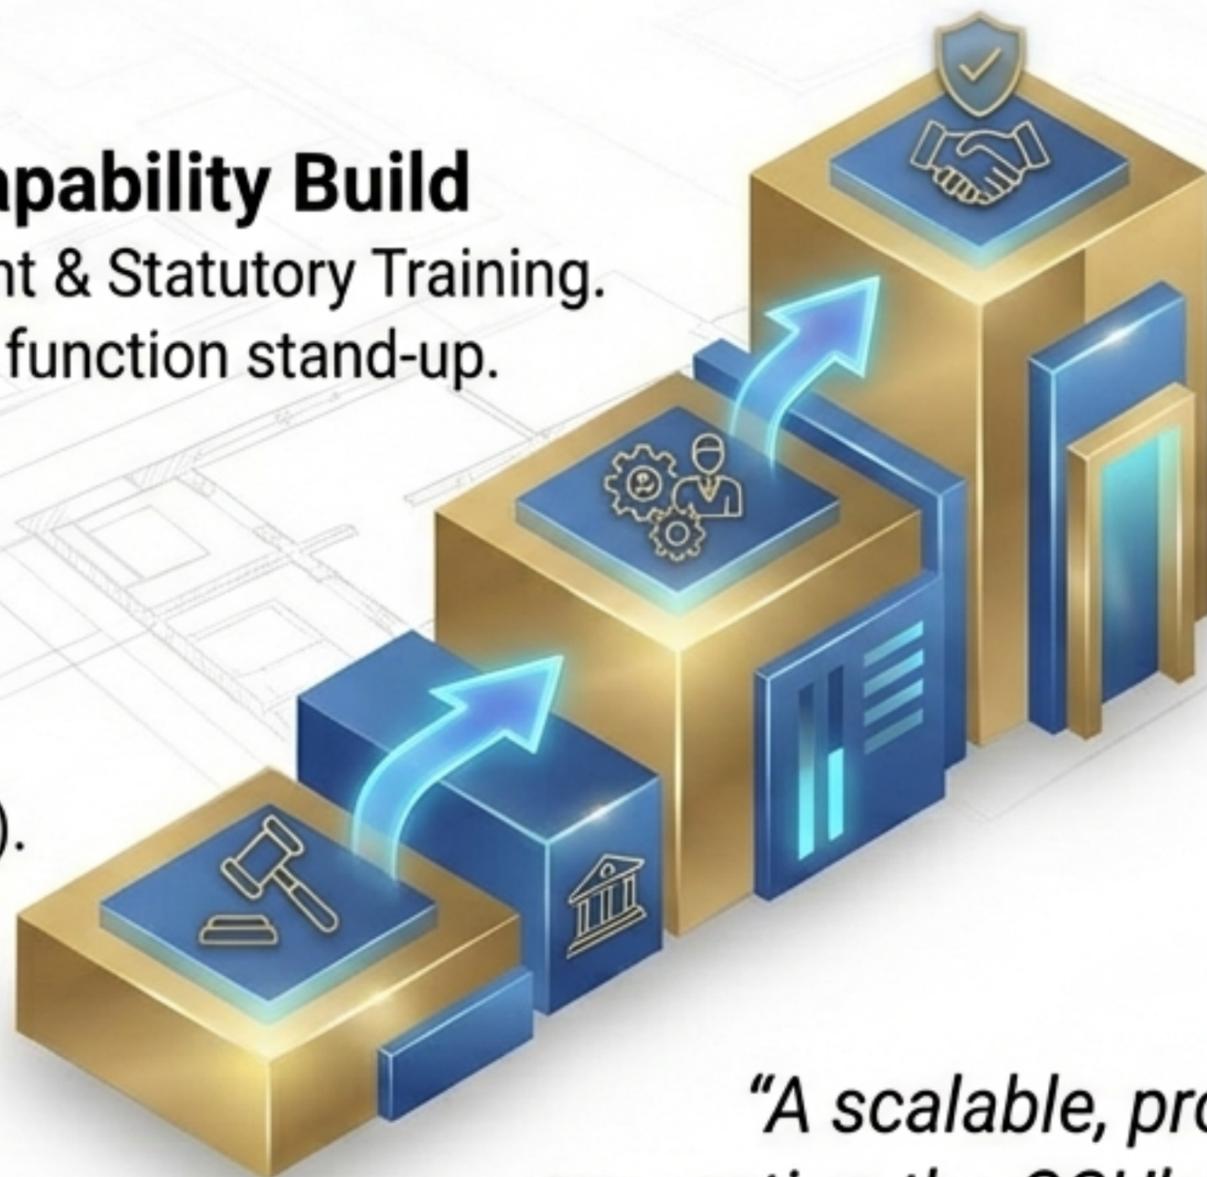

- Recruitment & Statutory Training.
- Command function stand-up.

Step 1: Foundation

- Legal constitution (AB status).
- Board seating & Licensing.

Step 3: Steady State

- Reliable support for EUOS/ECHO.
- Curated external client base.

“A scalable, professional security architecture supporting the CCU’s long-term international vision.”
